Attempt : 1

Total Mark : 10

Marks Obtained : 10

Section 1 : Coding

1. Problem Statement

In a user registration system, there is a requirement to implement a username validation module. Users attempting to register must adhere to specific criteria for their usernames to be considered valid.

Your task is to develop a program that takes user input for a desired username and validates it according to the following rules:

The username must not contain any spaces. The username must be at least 5 characters long.

Implement a custom exception, InvalidUsernameException, to handle cases where the entered username does not meet the specified criteria.

Input Format

The input consists of a string S, representing the desired username.

Output Format

If the username is valid, print "Username is valid: [S]" .

If the username is invalid:

1. If the username is short, print "Invalid Username: Username must be at least 5 characters long"
2. If the username contains spaces, print "Invalid Username: Username cannot contain spaces"

Refer to the sample output for formatting specifications.

Sample Test Case

Input: John

Output: Invalid Username: Username must be at least 5 characters long

Answer

```
// You are using Java
import java.util.*;
class InvalidUsernameException extends Exception{
    public InvalidUsernameException(String msg){
        super(msg);
    }
}
class Main{
    public static void main(String[] args){
        Scanner myobj = new Scanner(System.in);
        String s = myobj.nextLine();

        try{
            validateUserName(s);
            System.out.println("Username is valid: " + s);
        }
        catch(InvalidUsernameException e){
            System.out.println("Invalid Username: " + e.getMessage());
        }
    }
}
```

```
public static void validateUserName(String s)
throws InvalidUsernameException{
    if(s.length()<5){
        throw new InvalidUsernameException("Username must be at least 5
characters long");
    }
    if(s.contains(" ")){
        throw new InvalidUsernameException("Username cannot contain
spaces");
    }
}
```

Status : Correct

Marks : 10/10
